LRMC Women's Care Service Reopens Jan. 12

LANDSTUHL REGIONAL MEDICAL CENTER, Germany – The Women's Care Service at Landstuhl Regional Medical Center will reopen Jan. 12. This specialized service, which is open to all beneficiaries including retirees, retiree family members and DOD civilians, provides open access to women's health services in the Kaiserslautern Military Community without a referral from a Primary Care Manager.

Women's Care Service is co-located with the newly renovated LRMC OB/GYN Clinic on Ward 7A which offers significant upgrades from the previous facility with improved patient flow, larger and more functional exam rooms and upgraded equipment and furniture. Landstuhl leadership is confident that these improvements will greatly improve the overall patient experience and satisfaction for beneficiaries seeking OB/GYN treatment and women's health services at LRMC.

Women's Care Service is staffed by Women's Health Nurse Practitioners who specialize in comprehensive healthcare for women across their lifetime. Common issues handled by Women's Health Nurse Practitioners include well-woman exams, postpartum exams, vaginitis, birth control, vaginal lesions, and sexual transmitted infections/disease inquiries. Patients can access Women's Care Service by scheduling an appointment at DSN 590-5839 or Commercial 06371-9464-5839.
